LAB REPORT 12

MUHAMMAD FASEEH RAZA

DE 36 MTS B
Reg.No 7311

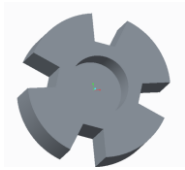

Objective: Making a simple assembly.

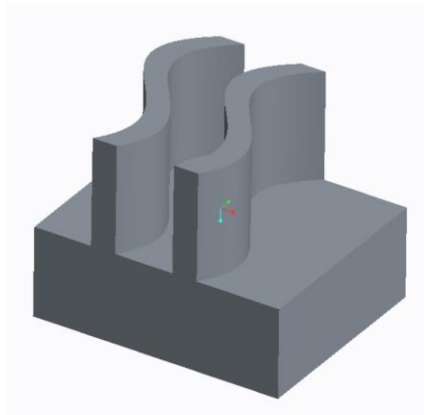

Procedure:

1. Draw two or more parts as different part files.
2. Make a new assembly file and import parts in that.
3. Apply constraints or move the parts via free hand to join them.

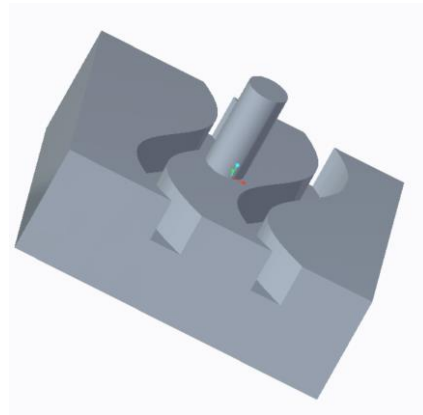

Part a:

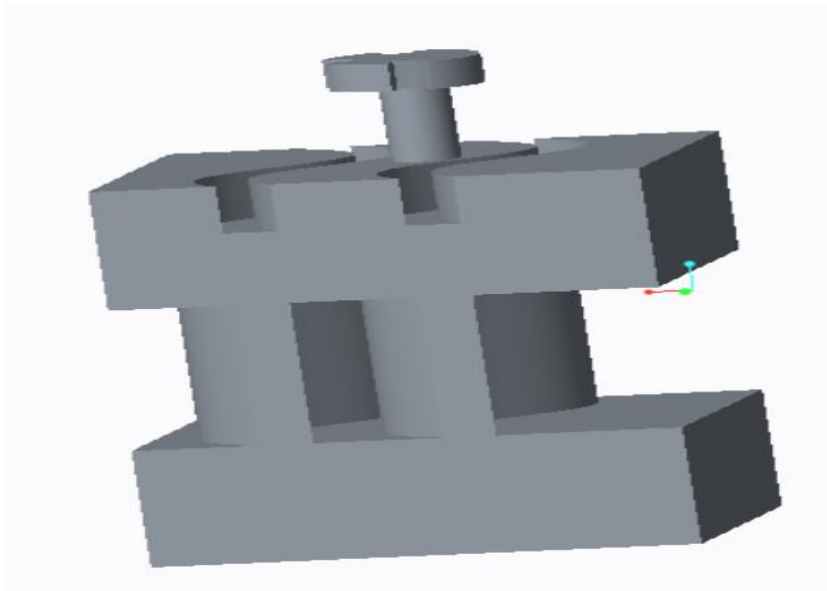

part b:

part c:

Assembly:

Conclusion:

With assembly we can join two or more parts to make an assembly.
